

e21 mediawire

Client decides on the distribution network by selecting the target media industry

Client submits a press release to e21 mediawire

e21 mediawire translates & localizes the press release for client to review and approve

After the approval of the press release, it is distributed to the chosen media

e21 mediawire follows up with the media if client selects the "placement" service at the onset

Client can review the clipping report from the "My Media Wire" section of e21 mediawire website
