

e21mediawire

Client decides on the distribution network by selecting the target media

Client submits a press release to e21mediawire

e21mediawire translates & localizes the press release for client to review and approve

After the approval of the press release, it is distributed to the selected media

e21mediawire follows up with the media if client selects the "personal follow up" service

Client can review the clipping report from the "My Mediawire" section of e21mediawire
